

WINNER: (PROJECT TEAM 3)
COMPANY FOR MODERN TECHNOLOGIES
M.HEALTH GROUP INTERNATIONAL DOO SKOPJE

Project name: m.Health / M.HEALTH

SHORT DESCRIPTION OF THE PROJECT:

m.Health is a smart platform that is creating an individual plan for monitoring the health of high-risk people with chronic diseases in partnership with their doctor. The added value is the integrated reminder with which patients receive notifications for regular follow-up with educational information that will improve patient adherence and reduce their risk for COVID-19. m.Health is creating an individual plan for monitoring women's health by developing screening steps, oriented to the needs of patients. m.Health creates a personal risk assessment of COVID-19, reporting symptoms in positive individuals for a quick examination with an alarm for worsening symptoms in real time and the need for hospitalization. m.Health is promoting patient's self-care, that contribute to reducing the pressure to the health system, by developing protocols for early detection of complications and for better management of the health system under COVID-19.

AMOUNT OF FUNDING:

30,000 euros,

which is the maximum amount of funds for financing an individual project proposal. The funds are provided in the ratio: 51% from the corporate partner Roche and 49% from FITD.
